

VIJAY KAKADE

AI ENGINEER | MULTI CLOUD ARCHITECT | DEVOPS | LINUX-UNIX

Address: Pune | Maharashtra, India-411047 | Cell: +91-9860826082 | vijaykakade@live.com | DoB:26th-August-1988 |
Language: Marathi, Hindi & English.

IT professional with 13+ years in infrastructure, cloud, and DevOps, including 10+ years designing and optimizing multi-cloud environments (AWS, Azure, GCP, OCI, IBM Cloud) and CI/CD pipelines using Docker, Kubernetes, Terraform, Ansible, and Jenkins. Skilled across Windows, Linux, UNIX, and Mainframe platforms, with strong expertise in server infrastructure, virtualization, networking, security, and databases for healthcare and supply chain enterprises.

Currently working as an AI Engineer, building Generative AI and Agentic AI solutions — chatbots, RAG pipelines, and AI-driven infrastructure automation — using Claude, OpenAI APIs, Azure OpenAI, Hugging Face, LLMs, and Vector Databases. Combines deep DevOps/cloud expertise with applied AI engineering to deliver scalable, automated, production-ready systems, and leads cross-functional teams to drive performance in mission-critical environments.

EMPLOYMENT HISTORY

Solutions Consultant | AI Engineer | Multi Cloud - Architect | DevOps Lead | Linux-Unix

June-2022 — Present

Wipro, Pune, MH, India

Tools/Technical Environment: AWS | Azure | GCP | Azure DevOps | Linux-UNIX | Jenkins | Git/GitLab | Docker | Kubernetes | Terraform | ARM Templates | Apache-Nginx | Python | Bash | DB2 | Oracle | Windows Server | IBM WebSphere Liberty Profile | Azure VMware Solution (AVS) | Azure Site Recovery (ASR) | Claude | OpenAI APIs | Azure OpenAI | Hugging Face | LLMs | RAG | Vector Databases.

- Lead AWS cloud migration, cutting infrastructure costs by 25% and boosting performance by 30%
- Design Azure Landing Zones per Microsoft CAF for secure, scalable cloud foundations.
- Architect multi-region high-availability deployments, reducing downtime by 45%.
- Automate deployments via Terraform, Bicep, and ARM templates, cutting manual effort by 40%.
- Optimize cloud costs by 30% through Reserved Instances, Savings Plans, and rightsizing
- Streamline CI/CD pipelines via Jenkins, increasing deployment frequency from bi-weekly to daily.
- Design Generative AI and Agentic AI solutions—chatbots, RAG pipelines—using Claude, OpenAI, Azure OpenAI, Hugging Face.
- Build LLM-powered automation with Vector Databases for AI-driven infrastructure operations
- Mentor 10 junior engineers and build monitoring systems, reducing MTTD by 50% and boosting productivity by 40%

Senior Consultant - SRE | Multi Cloud | DevOps Engineer | Linux-Unix | IBM TRIRIGA

June-2019 — June2022

Capgemini, Bengaluru, KA, India

Tools/Technical Environment: IBM Cloud | AWS | Azure | GCP | DB2 | Oracle | Windows Server | Red Hat Linux | WebSphere Liberty Profile | IBM HTTP Server | Grafana | Prometheus | ELK Stack | CloudWatch | ServiceDesk | Salesforce

- Designed and deployed scalable, secure multi-cloud infrastructure across AWS, GCP, and Azure for 24+ applications, optimizing cost and performance.
- Built Jenkins CI/CD pipelines integrated with Git and Docker, accelerating deployment frequency.
- Implemented observability using Prometheus, Grafana, ELK Stack, and CloudWatch, ensuring 99.9% application availability.
- Led migration of monolithic applications to microservices, reducing deployment failures by 80%
- Automated performance testing, improving system efficiency by 30%
- Performance Engineering: Automated testing improved system efficiency by 30%.
- Designed zero-data-loss disaster recovery plans, minimizing downtime during outages
- Automated database backup/recovery via scripting, cutting manual effort by 95% & Deployed IBM TRIRIGA (TAS) environments from scratch using automated and manual provisioning

Sr. Systems Engineer | Multi Cloud | Linux-Unix | IT Infrastructure | Data Center Operations

Sept-2015 — June-2019

*Wockhardt Ltd., Mumbai, MH, India***Tools/Technical Environment:** VMware vSphere/ESXi | vCenter | KVM | RHEL | CentOS | Fedora | DB2 | Oracle | Windows Server | Apache | Active Directory | LDAP | Exchange | Linux/UNIX

- Led a team of 7 engineers supporting client VMware infrastructure on vSphere 6.0/6.5 Enterprise Plus, providing architectural guidance across complex environments
- Designed and deployed RHEL, CentOS, and Fedora environments with KVM virtualization, including application deployment and support.
- Administered VMware vCenter/ESXi, configuring vMotion, HA, DRS, and virtual networks; managed backups using Veeam.
- Managed multi-platform infrastructure (Linux/Windows), including Active Directory, LDAP, Exchange, and patch management.
- Led full project lifecycle from requirements to live implementation, maintaining production, development, and test environments.

Systems Engineer | Enterprise Systems | IBM TRIRIGA Architect | Multi Cloud | Linux-Unix

Nov-2013 — Aug-2015

*ValuD Consulting LLC (Known as JLL Technologies), Chh. Sambhajinagar, MH, India***Tools/Technical Environment:** Linux/UNIX | VMware vSphere/ESXi | vCenter | IBM Cloud | IBM TRIRIGA | IBM DB2 | Oracle | Windows Server | WebSphere | JBoss | Apache | IIS

- Led enterprise IT operations as Lead Systems/Network Administrator, driving monitoring and deployment automation improvements.
- Led complete IBM TRIRIGA implementation lifecycle — sizing, installation, configuration, testing, deployment, and documentation.
- Engineered TRIRIGA integrations with enterprise systems, developing technical specifications and Real Estate module functionality.
- Administered IBM HTTP Server, TRIRIGA, WebSphere, JBoss, Apache, and IIS across Linux environments.
- Delivered enterprise-class VMware infrastructure (vSphere 6.0/6.5) as multi-tenant cloud base for service provider partners Administered vCenter, configuring HA/DRS clusters, VM templates, Fault Tolerance, and vRealize Operations Manager for capacity planning.

ADDITIONAL EXPERIENCE**Lead Instructor – Cisco Networking**

Nov-2010 — Nov-2013

*Jeet Institute, Chh. Sambhajinagar, MH, India***GLOBAL CERTIFICATIONS**

GitHub Copilot	Nov 2025
Oracle Cloud Infrastructure 2025 Certified Multicloud Architect Professional	Sept 2025
Oracle Cloud Infrastructure 2025 Certified DevOps Professional	Sept 2025
Oracle Cloud Infrastructure 2025 Certified Generative AI Professional	Sept 2025
Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate	Sept 2025
Oracle AI Vector Search Certified Professional	Sept 2025
Oracle Cloud Infrastructure 2025 Certified Architect Associate	Sept 2025
Red Hat Certified Engineer (RHCE)	Aug 2012
Novell Certified Network+ - Microsoft Certified IT Professional (MCITP)	Feb 2007

EDUCATION

Dr B.A. Marathwada University, Aurangabad.
Bachelor of Science

March-2010

TECHNICAL SKILLS | SOFT SKILLS

PortFolio: <https://vijaykakade.com/> LinkedIn Profile: <https://linkedin.com/in/vjkakade>

Generative AI & LLMs: Claude, OpenAI APIs, Azure OpenAI, Hugging Face, GPT Models, Large Language Models (LLMs), Prompt Engineering | **Agentic AI:** Agentic AI Workflows, AI Agents, Multi-Agent Orchestration, Autonomous Task Automation | **Cloud Platforms:** AWS, IBM Cloud, GCP, Azure | **Containerization:** Docker, Kubernetes | **Configuration management:** Ansible | **Infrastructure as code:** Terraform, Cloud Formation | **CI/CD:** Jenkins, Git, GITLab | **Scripting languages:** Python, Bash | **Monitoring and logging:** Prometheus, Grafana, ELK Stack, AWS CloudWatch | **Methodologies:** Scrum & Agile | **Database technologies:** IBM DB2, Oracle, MySQL, PostgreSQL, MongoDB | **SOFT SKILLS:** Collaborator, Communicator, Innovator, Planner, Thinker, Analytical and Problem-solver.
